Total length replaced, 14,487 feet.

It is the unanimous opinion of the Water Commissioners that the work of replacing the cement mains with cast iron should be continued as fast as possible. We would respectfully call the attention of the City Council to the necessity of providing funds for this work, either by obtaining authority to issue water bonds, or in some other manner

placing a loan. We would also ask your prompt action on this matter, as orders for pipe can be placed at better prices early in the winter, and prompt delivery of pipe secured.
